External Catering Facility Fee

At Party Higher, we are committed to providing a seamless and enjoyable experience for every event at our venue. While we don't have a commercial kitchen on-site, we offer a range of preferred catering options—from food trucks to grazing tables to BYO—that meet our standards of quality and service. If you wish to bring in an external caterer outside our preferred options, we are also ok with that. For any catering services that require us to be there earlier, there is a small charge of \$200 only. This fee helps us cover the additional requirements of hosting an external provider, including:

- **Electricity and Power:** Ensuring adequate electricity is provided for catering equipment.
- **Lighting:** Setting up appropriate lighting to accommodate food preparation and service areas.
- **Staffing:** Opening up our Venue earlier for them to prep and cook food.
- **Tables, Setup, and Logistics:** Organising tables and other essentials to ensure your caterer has what they need for smooth operation.

Please note that if you are bringing in your own food or just ordering food for delivery during your party time this charge does not apply.

We appreciate your understanding and are happy to discuss how we can help make your event an unforgettable experience, whether you choose one of our preferred caterers or an external provider.
